**Umatilla Parks and Recreation Program Update
Parks and Recreation Committee Meeting
Sept 8, 2022 @ 6PM
City Hall Council Chamber**

Community Gardens:

For the Fiscal Year 2022/2023, the City budgeted startup money to begin a community garden program. The Parks and Recreation Department staff visited the Hermiston Community Garden and started meeting with community resources like the County Extension Office to begin to build support for the project. The preliminary phase of development will include identifying and evaluating potential sites. After the site(s) are selected, staff will work on a garden design and structure. This process will involve a steering committee of stakeholders and staff. The final phase will be implementation and construction.

Grants & Projects:

The City has numerous grants and projects related to parks in progress. As staff become more involved in these grants and projects, more comprehensive updates will be provided at future committee meetings. Some of the current grants and projects are listed below:

- LWCF Nugent Park Grant
- Wayfinding and Signage Project
- Trail Grant & Project
